ILT Student's Journey

Graduation!
They've made it
through the program,
learning many new
skills along the way.

Student is currently working at their job.

Many weekends are sacrificed to complete the course work.

Having made it through one of the most challenging classes, they emerge more confident in their technical skills. The student takes INTE 5660 and wonders, am what am I doing? Am I going to make it through this class?
